Re: Response to Data Request PSC-001 of the Montana Public Service Commission to CenturyLink in consolidated Docket Nos. D2014.11.91 and N2014.4.38

Dear Ms. Whitney:

Transmitted with this letter is Exhibit 4 of CenturyLink QC's response to Data Request PSC-001 of the Montana Public Service Commission in the above referenced docket.

In pertinent part, PSC-001 reads as follows:

For the calendar year 2013 and for the period January through August 2014, provide a list of the specific Montana projects for which the above referenced amounts were spent. The information for each project should include the following:

1. A detailed description of the unserved geographic area now served.
2. The number of customers that were unserved prior to the project but now have access to a broadband capable network.
3. The upload and download speeds deployed for each project.
4. A detailed description and inventory of the network additions and upgrades required for the project, the cost of each upgrade or addition, and the total project cost.

On December 3, 2014, CenturyLink QC's filed Exhibits 1 through 3 to its response to PSC-001 as non-confidential. On December 4, 2014, CenturyLink QC filed a motion for a Standard Protective Order pursuant to ARM § 38.2.5014 requesting protection of certain portions of Exhibits 4 and 5 to its response to PSC-001 from public disclosure. On January 28, 2015, the Commission issued Order No. 7388a denying CenturyLink QC's motion.

CenturyLink QC will file a motion for reconsideration of Order No. 7388a but with regard to Exhibit 5 only. While some of the contents of Exhibit 4 are currently confidential, all of the contents of Exhibit 4 will become public information in the due course of time. Knowing that the confidentiality of the data in Exhibit 4 is temporary, CenturyLink QC has elected to provide Exhibit 4 without protection from public disclosure.

Respectfully,
