Subject: Rate Case/travel

Fellow Commissioners,

Because of the enormity of the time allocation for the NWE rate case for the 12 days allocated (includes one weekend) I will allow the use of travel funds for hotel accommodations. I certainly do not want anyone to be driving back and forth adding half a day to already long days and increase the odds of falling asleep at the wheel, travel delays due to construction, etc. So please consider taking this offer.

There are several other events in Helena during our hearing dates and room availability is getting tight at Jorgensons AKA Best Western so if you want a room time is of the essence.

Brad
