VERIFIED STATEMENT

Schedule 5 must be completed by Class D carriers who did not generate \$5,000 gross revenue from Class D operations and did not serve twenty (20) customers for each month of the calendar year.

The verified statement will be reviewed by the Commission and a determination made whether the certificate should be cancelled.

RE: Budgets for Environmental Monitoring and Reporting and Operation and Maintenance for Corrective Actions at the Helena Landfill for Fiscal Year 2018-2019

Dear Pete:

Attached Table 1 shows the projected annual budget for the Helena Landfill for the next thirty years. Tables 2 through 7 include detailed costs for environmental monitoring and reporting as well as operation and maintenance (O&M) costs for the YMCA landfill gas extraction system (operational since June 1998), the Carroll College passive landfill gas interception trench (operational since December 1999), the Lyndale passive landfill gas interception trench (operational since March 2016) and the groundwater extraction system (operational since June 2000).

For the environmental monitoring and reporting, this budget includes estimated costs associated with routine environmental monitoring of the landfill and maintenance of the remediation systems, but does not include unforeseen or ancillary items such as additional monitoring required by the Montana Department of Environmental Quality or unexpected maintenance issues associated with older systems. We are also assuming that the statistical reports fulfill the annual reporting requirements of MDEQ. These costs do not include additional remedial activities, meetings and reports required by MDEQ to demonstrate the effectiveness of the corrective actions previously implemented.

For budget purposes and as included in the scope of work, an additional \$20,000 has been included for non-routine engineering services for unforeseen or ancillary items such as those mentioned above. These activities will be performed at the written request of the City and will be billed in accordance with Hydrometrics Fee Schedule and Equipment and Services Rates.

Although electrical costs for the YMCA gas extraction system and groundwater extraction system are included in these cost estimates, these items are the responsibility of the City and are based on data provided by the City.

Pete Anderson January 23, 2018 Page 2

Costs for the cap inspection and drainage maintenance shown on Table 1 are based on the engineer's estimate rather than actual data and this work is the responsibility of City personnel.

If you have any questions concerning these costs, please don't hesitate to call.

Sincerely,

Jodi Bingham, P.E.

Environmental Engineer/Chemist

- (2) Assumes sampling of 8 monitoring wells, 2 residential wells, and 3 QA/QC samples.
- (3) Assumes monitoring of 13 methane probes, 9 gas extraction system components, and 8 nearby buildings.
- (4) Assumes monitoring of 25 methane probes, 10 groundwater monitoring wells, and 2 utility probes.
- (5) Includes miscellaneous sampling and engineering requested by the City throughout the year for various unforseen events (ie. Legal issues, unique sampling events, safety issues, etc.)
- (6) Electrical costs are paid directly by the City and are included here for budgetary purposes.
