INDEPENDENT AUDITOR'S REPORT and FINANCIAL STATEMENTS

DECEMBER 31, 2002 AND 2001

CERTIFIED PUBLIC ACCOUNTANTS

601 West Riverside, Suite 1800 Spokane, WA 99201-0663

Phone 509.747,2600 Toll Free 1.800.888.4065 FAX 509.624.5129 www.mossadans.com

INDEPENDENT AUDITOR'S REPORT

Board of Directors Southern Montana Telephone Company Wisdom, Montana

We have audited the accompanying balance sheets of Southern Montana Telephone Company as of December 31, 2002 and 2001, and the related statements of income, stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Southern Montana Telephone Company, as of December 31, 2002 and 2001, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated January 24, 2003, on our consideration of Southern Montana Telephone Company's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Moss (Lame) o Spokane, Washington

January 24, 2003

Note 1 - Significant Accounting Policies

Nature of operations:

Southern Montana Telephone Company (the Company) is a local exchange carrier (LEC) providing local telephone service, internet access, and access to long-distance telecommunications services. The Company serves commercial and residential customers in the southwestern Montana exchanges of Divide, Grant, Jackson, Wisdom, and Wise River. The Company is subject to the rules and regulations of the Federal Communications Commission (FCC) and the Montana Public Service Commission.

Accounting policies:

The financial statements of Southern Montana Telephone Company have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to regulated public utilities. Such accounting principles are consistent in all material respects with accounting prescribed by the FCC.

Cash equivalents:

Cash and cash equivalents are defined as short-term, highly liquid investments that were purchased with an original maturity of three months or less and are readily convertible into cash. Cash equivalents are stated at cost and primarily consist of money market funds.

Nonregulated services:

The Company accounts for its nonregulated activities as follows:

Nonregulated activities involving the joint use of regulated assets are accounted for within the prescribed regulated system of accounts for telephone company operations. These activities include internet and directory services and other income items incidental to the provision of regulated telephone services.

Nonregulated activities not involving the joint use of regulated assets are accounted for separately from regulated activities. Plant facilities and other property and equipment are recorded as nonregulated investments. Operating revenues and the related expenses are separately presented as nonregulated revenues and expenses. These activities include payphone services.

Supplies:

Supplies are stated at the lower of average cost or replacement market.

Local service revenue:

Billings for local service revenue are rendered monthly in advance. Advance billings are recorded as a liability and subsequently transferred to income in the period earned.

Note 1 - Significant Accounting Policies (Continued)

Property, plant, and equipment:

Property, plant, and equipment are stated at cost. The cost of additions and substantial betterments of property, plant, and equipment is capitalized. The cost of maintenance and repairs is charged to operating expenses.

Property, plant, and equipment are depreciated using straight-line methods in accordance with rates as approved by the Montana Public Service Commission, generally ranging from 3 to 29 years. In accordance with composite group depreciation methodology, when a portion of the Company's depreciable property, plant, and equipment is retired in the ordinary course of business, the gross book value is charged to accumulated depreciation.

Investment securities:

The Company's policy for investment securities is as follows:

- * Trading securities: Trading securities consist of debt and equity securities that are bought and held principally for the purpose of selling in the near term and are reported at fair value, with unrealized gains and losses included in earnings. The Company did not hold any trading securities during 2002 or 2001.
- * Securities held to maturity: Debt securities for which the Company has the positive intent and ability to hold to maturity are classified as held to maturity. Held to maturity securities are stated at amortized cost.
- * Securities available for sale: Securities not classified as held to maturity or trading are classified as available for sale. Available for sale securities are stated at fair value, with any unrealized gains and losses, net of deferred taxes, reported as a separate component of stockholder's equity.

Valuation of accounts receivable:

An estimate of collectibility of accounts receivable is made annually. Specific accounts are charged to bad debt expense when it is determined that the account will not be collected. The result of this method does not materially differ from accounting principles generally accepted in the United States of America.

Allowance for funds used during construction (AFUDC):

The Company records as income and capitalizes as a cost of construction the cost of financing large construction projects spanning a period greater than two months. The Company uses a weighted-average interest rate based on total Company long-term debt. No such costs were capitalized in 2002 or 2001.

Note 1 - Significant Accounting Policies (Continued)

Income taxes:

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets relate primarily to employee benefit accruals and the unrealized loss on available for sale securities. Deferred tax liabilities relate primarily to the use of accelerated depreciation methods for tax purposes. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. Investment tax credits, which were deferred prior to the TRA '86, are being amortized over the regulatory or service life of the assets which produced the credits.

Concentration of credit risk:

At various times throughout the year, cash balances exceed federally insured limits in individual financial institutions. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Accounting estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include depreciation expense and interstate access revenue settlements.

New accounting standards:

Effective January 1, 2002, the Company adopted SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets which addresses accounting and reporting of all long-lived assets, except goodwill, that are either held and used, or disposed of through sale or other means. The adoption of this statement had no impact on the Company's results of operations, financial position, or cash flows.

In July 2001, the Financial Accounting Standards Board (FASB) issued SFAS No. 143, Accounting for Asset Retirement Obligations effective for fiscal years beginning after June 15, 2002. This statement provides accounting guidance for legal obligations associated with the retirement of long-lived assets. Management is currently assessing its legal obligations but believes there will be no material impact on the Company's results of operations, financial position, or cash flows.

Reclassifications:

Certain accounts have been classified differently than as originally reported on the 2001 financial statements. The effect of these reclassifications made to conform to 2002 classifications is immaterial.

Note 2 - Property, Plant, and Equipment

Property, plant, and equipment balances together with accumulated depreciation and amortization consist of the following at December 31, 2002 and 2001:

	Plant Accumulated Account Depreciation		2002 Net Balance	2001 Net Balance	
Plant in service Plant under construction	S 7,624,280 10,001	S 3,888,078	S 3,736,202 10,001	\$ 4,046,068 5,434	
TOTAL	S 7,634,281	S 3,888,078	S 3,746,203	\$ 4,051,502	

Telecommunications plant in-service balances together with accumulated depreciation consists of the following at December 31, 2002 and 2001:

		Plant .ccount		ecumulated epreciation		2002 Net Balance		2001 Net Balance

Note 4 - Investment in Debt and Marketable Equity Securities (Continued)

A summary of investment earnings recognized in income during the years ended December 31 is as follows:

	M. Philippine.	2002	2001
Available for sale securities: Realized losses Amortization of discount Interest earned Dividends received	\$ 	(14,636) 64,001 10,827 12,601	\$ (10,957) 66,631 19,856 22,611
	<u>_S</u>	72,793	\$ 98,141

Note 5 - Investments in Nonaffiliates

Montana Advanced Information Network, Inc. (MAIN) was formed to pursue the development of an intrastate toll network. The Company joined a consortium of Montana local exchange carriers with the purpose of constructing and operating a fiber optic transmission system. The investment is maintained on the cost method of accounting.

During 2002, Southern Montana Telephone Company evaluated the carrying value of its investment due to recurring operating losses since MAIN was established. As a result of this evaluation, management reduced the carrying value of its investment by \$200,000.

Investments in nonaffiliates consist of the following assets at December 31:

		2002	2001
Montana Advanced Information Network Other nonmarketable telephone stocks and investments	\$	240,000 40,592	\$ 440,000 45,558
	S	280,592	\$ 485,558

Note 6 - Long-Term Debt

Long-term debt is as follows at December 31:

Long-term debt is as follows at Decem	iber 31:	Maturity		
	Interest Rate	Dates	2002	2001
Rural Utilities Service (RUS)	2.00% - fixed	2016	\$ 2,037,315	\$ 2,168,863
Rural Telephone Finance Cooperative (RTFC)	5.75% - variable	2004	184,895	322,218
Notes payable, former stockholder	7.50% - fixed	2010	547,931	599,152
			2,770,141 314,150	3,090,233 305,944
Less current portion			\$ 2,455,991	\$ 2,784,289

Substantially all assets of the Company are pledged to secure the RUS notes.

The terms of the mortgage agreements contain restrictions on the declaration or payment of cash dividends, redemption of capital stock, or investment in affiliated companies.

Aggregate maturities or payments required on principal under long-term debt obligations for each of the succeeding five years are as follows:

of the succeeding five joins are	\$	314,150
2003		256,872
2004		204,031
2005		211,854
2006		220,124
2007		1,563,110
Later years	•	
	\$	2,770,141

Note 7 - Retirement Plans

The Company participates in two multi-employer pension plans with the National Telephone Cooperative Association that cover substantially all of its employees.

The "retirement and security program" is a defined benefit plan. The Company's regular contribution to the retirement and security program and the amount charged to pension expense for the years ended December 31, 2002 and 2001, was \$61,228 and \$62,907, respectively.

Note 7 - Retirement Plans (Continued)

The "savings plan" is a noncontributory defined contribution plan. The Company's contributions were \$25,088 and \$27,436 for the years ended December 31, 2002 and 2001, respectively.

Note 8 - Income Taxes

Components of provision for income tax expense:

Current:	2002	2001
Federal State Deferred: Federal	S 139,015 30,109	\$ 121,403 25,768
State Prior year overaccrual	(132,998) (24,666) (3,920)	(20,910) (2,413) (6,479)
	S 7,540	\$ 117,369
Operation	2002	2001
Operating Nonoperating Nonregulated benefit	\$ 18,800 (8,657) (2,603)	\$ 126,714 (15,704) 6,359
	\$ 7,540	\$ 117,369

Classification of expense:

The provision for income taxes differs from the amount computed by applying the current statutory federal income tax rate to earnings before taxes due to the effects of state taxes (net of federal benefit), nondeductible items, and prior year over or under accruals.

Note 8 - Income Taxes (Continued)

The components of the net deferred tax asset (liability) recorded in the accompanying balance sheet at December 31, 2002 and 2001, are:

		2002	2001
Deferred tax assets: Accrued employee benefits Aid to construction Unrealized loss on available for sale securities Other	\$	41,881 81,500 53,565 10,534	\$ 34,197 3,255 78,657
Deferred tax liabilities: Tax depreciation greater than book Other	-	187,480 (900,883) (17,064)	(960,605) (9,790)
Deferred investment tax credit		(48,816)	(970,395) (57,569)
NET DEFERRED TAX LIABILITY	<u>s</u>	(779,283)	\$ (911,855)

Deferred investment tax credits are amortized over the regulatory life of the property which produced the deferred taxes.

For the year ended December 31, 2002, there were income taxes payable of \$14,174. For the year ended December 31, 2001, there were income taxes receivable of \$16,329.

Note 9 - Access Revenues

The Company's access revenues are determined by industry-regulated procedures for originating and terminating long-distance calls.

Intrastate:

Revenues for intrastate access are based on the Company's tariffed rates. Rates are regulated by the Montana State Public Commission and billed to interexchange carriers.

Note 9 - Access Revenues (Continued)

Interstate:

Revenues for interstate toll services are based on the Company's participation in the revenue pools administered by the National Exchange Carrier Association (NECA) which is regulated by the FCC. Revenues are determined by annually prepared separations and interstate access cost studies. Revenues for the current year are based on estimates prior to the submission of the cost study reporting actual results of operations and network traffic measurements. Additionally, the studies are subject to a 24-month pool adjustment period and a final review and acceptance by pool administrators. Management does not anticipate significant adjustments to recorded revenues for the years ended December 31, 2002 and 2001.

Note 10 - Workers' Compensation

The Company is a member of the Montana Electric and Telephone Systems Self-Insured Workers' Compensation Pool (the Pool). The Pool covers potential liability for workers' compensation and occupational disease to employees and dependents of deceased employees of all members in the Pool. The Company is jointly and severally liable with the other members for the full amount of all known and unknown claims.

Note 11 - Related Party Transactions

The Company leases its office building from Robert G. Helming, sole stockholder, officer, and director of the Company. The lease calls for monthly payments of \$2,200 through December 31, 2007. Following is a summary of minimum rental payments under the current lease for the year subsequent to December 31, 2002:

2003	\$	26,400
2004		26,400
2005		26,400
2006		26,400
2007		26,400
	 	
	\$	132,000

Note 12 - Treasury Stock

During 2002, management determined that the 2,297 shares of stock held in the Treasury will not be re-issued. The Company has executed the necessary amendment to the articles of incorporation, retiring and canceling the outstanding Treasury stock, and reducing the number of authorized shares from 5,000 to 2,703.
