Notes to Schedule 8

- (A) Revenues and expenses were allocated using FCC Part 36 separation rules. Allocation factors are based on prior years traffic measurements (i.e. allocations for 2003 are based on the 2002 traffic measurement) which are the most current factors available.
- (B) Authorized by Montana Public Commission, Docket 6522, Order Number 4409.

Note: Rate Base Components are calculated using an average of beginning and end of year balances.

(10) Postretirement Benefits

The Company sponsors health care plans (which use a December 31 measurement date) that provide postretirement benefits to all qualified retired employees.

On December 8, 2003, President Bush signed into law a bill that expands Medicare, primarily adding a prescription drug benefit for Medicare-eligible retirees starting in 2006. The Company anticipates that the benefits it pays after 2006 will be lower as a result of the new Medicare provisions; however, the Company's retiree medical obligations and reported costs do not reflect the impact of this legislation. Deferring recognition of the new medicare provisions' impact is permitted by Financial Accounting Standards Board Staff Position 106-1 due to unresolved questions about some of the new Medicare provisions and a lack of authoritative accounting guidance about certain matters.

In 2003, the Company announced changes, effective January 1, 2004, that would decrease its subsidization of benefits provided under its postretirement benefit plan.

The following is a reconciliation of the beginning and ending balances for the benefit obligation and the plan assets.

The Company employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews.

The Company's postretirement benefit plan weighted-average asset allocations at December 31, 2003 and 2002 by asset category are as follows:

	2003	2002
Equity securities	80.5%	56.2
Debt securities	16.4	36.6
Other	3.1	7.2
<u>Total</u>	100.0%	100.0

In determining the expected return on plan assets, historical markets are studied and long-term relationships between equities and fixed income are preserved consistent with the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. Current market factors such as inflation and interest rates are evaluated before long-term capital market assumptions are determined. Peer data and historical returns are also reviewed to check for reasonableness.

Assumed health care cost trends have a significant effect on the amounts reported for postretirement benefit plans. A one-percentage-point change in assumed health care cost rates would have the following effects:

	1-Percentage	1-Percentage
	Point Increase	Point Decrease
	(Dollars ir	thousands)
Effect on total of service and interest cost components Effect on postretirement benefit obligation	\$ 1,588 \$ 20,377	(1,514) (19,126)

The Company expects to contribute approximately \$13 million to its postretirement benefit plan in 2004.

(11) Retirement And Savings Plans

CenturyTel and certain subsidiaries sponsor defined benefit pension plans for substantially all employees. CenturyTel also sponsors an Outside Directors' Retirement Plan and a Supplemental Executive Retirement Plan to provide directors and officers, respectively, with supplemental retirement, death and disability benefits. The Company uses a December 31 measurement date for its plans.

The following is a reconciliation of the beginning and ending balances for the aggregate benefit obligation and the plan assets for the Company's retirement and savings plans.

- v. pan assets at end of year	\$	348,308	266,420	270,902

At December 31, 2003, the Company's underfunded pension plans (meaning those with benefit obligations in excess of plan assets) had aggregate benefit obligations of \$138.4 million and aggregate plan assets of \$84.4 million. As of December 31, 2002, all of the pension plans had benefit obligations in excess of plan assets.

Net periodic pension expense (benefit) for 2003, 2002 and 2001 included the following components:

Year ended December 31.	2003	2002	2001

The Company employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews.

The Company's pension plans weighted-average asset allocations at December 31, 2003 and 2002 by asset category are as follows:

Equity securities	2003	2002
Debt securities	54.0%	66.5
Cash and cash equivalents	11.0	5.7
Other	32.3	24.4
Total	2.7	3.4
	<u> </u>	100.0

In determining the expected return on plan assets, historical markets are studied and long-term relationships between equities and fixed income are preserved consistent with the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. Current market factors such as inflation and interest rates are evaluated before long-term capital market assumptions are determined. Peer data and historical returns are also reviewed to check for reasonableness.

The amount of the 2004 contribution will be determined based on a number of factors, including the results of the 2004 actuarial valuation report. At this time, the amount of the 2004 contribution is not known.

CenturyTel sponsors an Employee Stock Ownership Plan ("ESOP") which covers most employees with one year of service with the Company and is funded by Company contributions determined annually by the Board of Directors. The Company's expense related to the ESOP during 2003, 2002 and 2001 was \$8.9 million, \$9.3 million, and \$7.5 million, respectively. At December 31, 2003, the ESOP owned an aggregate of 7.2 million shares of CenturyTel common stock.

CenturyTel and certain subsidiaries also sponsor qualified profit sharing plans pursuant to Section 401(k) of the Internal Revenue Code (the "401(k) Plans") which are available to substantially all employees of the Company. The Company's matching contributions to the 401(k) Plans were \$8.2 million in 2003, \$6.7 million in 2002 and \$6.6 million in 2001.
